

MITCHELL ENFIELD

Senior Software Developer

St. Johns, FL

(561)699-0925

MitchEnfield@gmail.com

UI/UX Design and Development ♦ Functional Programming ♦ Full Stack Development ♦ Relational Database Systems ♦ 8 Years of Software Engineering Experience

Professional Experience

Contract work

February 2019 to Current - **HealthNetwork**, Remote

- Created structured mock ups of upcoming features for the UI by following requirements proposed by product managers using Figma
- Developed new features by writing clean and efficient angularJS code and implementing it's best practices
- Created a new application from the ground up to incrementally replace existing angularJS codebase with a React component based architecture
- Worked with a squad of developers using the agile pod methodology to deliver a quality-driven product to stakeholders
- Held a position as squad leader to put together various sprint meetings, manage deployments, and communicate development details among other squad leaders

Senior UI/UX Developer

February 2019 to Current - **Bidtellect**, Delray Beach, FL

- Created structured mock ups of upcoming features for the UI by following requirements proposed by product managers using Figma
- Developed new features by writing clean and efficient angularJS code and implementing it's best practices
- Created a new application from the ground up to incrementally replace existing angularJS codebase with a React component based architecture
- Worked with a squad of developers using the agile pod methodology to deliver a quality-driven product to stakeholders

Technical Tools

Javascript

ReactJS

Angular

HTML5

Figma

Node.js

NextJS framework

SQL Server

MongoDB

- Held a position as squad leader to put together various sprint meetings, manage deployments, and communicate development details among other squad leaders

Full Stack Software Engineer

January 2017 to February 2019 - **Driver's Alert**, Deerfield Beach, FL

- Created mockups of proposed designs to present to stakeholders using Adobe XD and Figma.
- Utilized the React library and MUI framework to create small, reusable, and testable components that made up an aesthetically pleasing, modern, and reactive UI
- Designed and developed the RESTful API using Node.JS and the Express framework using best practices
- Designed and built out schemas, indexes, and stored procedures in SQL Server

Quality Intern & Independent Quality Contractor

March 2016 to August 2016 & September 2016 to November 2016 - **Bidtellect**, Delray Beach, FL

- Learned about and was responsible for delivering quality to all stages of the software development lifecycle
- Worked with backend developers to develop unit tests to ensure smooth releases of new patches and features
- Tested and documented new features as they were added to the system

Education

Florida Atlantic University

2012 to 2016, *Bachelors of Science with a major in Computer Science*

Attended classes and worked on various projects to sharpen knowledge in the software development field
